TRADERS' RESOURCE

Forex Brokerages

Foreign exchange traders have more choices than ever in their ongoing search for speed, pricing efficiency, and good accounting when it comes to forex brokerages. First, you must find a forex brokerage that handles your particular currency cross or pair. You should also look at margin requirements/leverage, and whether the broker offers a miniaccount. With a little research, you will be able to find a forex brokerage targeted on your interest.

After that, your first question might be, "How fast can I execute an order?" For this, it's best to test out a demo account offered by the brokerage. This gives you the opportunity to see if the prices on the screen are actually honored and the speed at which your order gets executed.

A forex brokerage's ability to provide market statistics, hedging activity reports, and other such information may be critical to your trading and investing decisions.

TRADERS' RESOURCE AT TRADERS.COM

Traders' Resource is available at our website, Traders.com, where you'll not only find a brokerages listing, but also information on other products and services in numerous other categories, such as data services, seminars, hardware, software, trading systems, publications, and more. Just click on the Traders' Resource link. Then follow the Brokerages category link, or use the search feature to find products or services with specific attributes in this or other categories. All you have to do is view the Brokerages listing and search by the term "forex."
