TRADINGSCREEN ADDS MARKETPLACE, INTEGRATES DATA SERVICE

TradingScreen announced that the BlockBook marketplace for trading large blocks of Canadian equities has been added to the suite of TradingScreen liquidity destinations. Perimeter Financial's BlockBook offers TradingScreen buyside clients access to an alternative liquidity source for Canadian equities.

In other news, TradingScreen said that it was now offering the integration of DirectPlus, a managed ultra-low latency direct exchange data service from Interactive Data's real-time services business. DirectPlus is designed to provide access to sub-one millisecond data from a range of sources, such as NYSE Openbook, NASDAQ Level 1, and SingleBook, ArcaBook, and Direct Edge ECN. TradingScreen can enable customers to more efficiently develop and execute their algorithmic trading strategies.

Interactive Data
