## TRADERS' RESOURCE

Whether you choose to turn a physical page or a virtual one using your favorite high-tech reading device, tablet, or platform, books today are alive and well, available in more formats than ever before. With so many to choose from, including classic texts published long ago and the most recent arrivals on the scene, you can find numerous books that will teach you what you need to know about trading and the techniques to trade better.

This month's Traders Resource is the tip of the iceberg when it comes to all the available books out there for traders and investors. Websites such as TraderPlanet ([traderplanet.com](http://traderplanet.com)) and Traders' Library ([traderslibrary.net](http://traderslibrary.net)) can help you locate nearly any trading or investing book. In addition, Amazon.com and barnesandnoble.com, among other websites, can help you home in on a subject and suggest other related and popular material.

Beginning traders should be sure to read the writings of Robert Edwards and John Magee, Jack Schwager, J. Welles Wilder, Martin Pring, Perry Kaufman, and Edwin LeFèvre to start your education down the right path. And traders of every level and experience should discover new sources from the information available at the Traders' Resource database at our website. Good reading!
